

she'sback

and taking the corporate concierge industry by storm.

After selling 2 Places At 1 Time, the national corporate concierge firm that Andrea Arena founded over 20 years ago, Andrea intended to take a different professional path, but felt drawn back to her first love — providing premier concierge services. Andrea is enthusiastic about her new company and leveraging today's technology to make service even more convenient for clients. Coupling the industry's best proprietary technology with the most extensive errand running capability, will be the foundation of her company — TimeSquared.

TimeSquared

growing time exponentially

“I wanted to positively impact the lives of professionals. It’s a mission I’m still passionate about! I look forward to providing the tremendous service that was the cornerstone of my previous company.” — Andrea Arena, Founder, TimeSquared
